

## ARMA Silicon Valley Chapter Meeting Notice

The September meeting is being hosted at Altera Corporation.

### Schedule:

Registration / Networking	11:30a – 12:00p
Chapter Business / Sponsor Acknowledgment	12:00p – 12:10p
Speaker Presentation / Q&A	12:10p - 1:00p
Closing / Networking	1:00p - 1:30p

### Topic:

Working with IT

### Session Overview:

Please join Michelle Koblas and Pam Segerquist (Brocade Corporation) as they discuss how to build good working relationships between RIM, Legal and IT.

## **Speaker Bio(s):**

Michelle Koblas is a client-focused IT and Information Security professional with excellent communication skills and a broad technical background. She has over 25 years experience leading cross-functional IT and Information Security functions, including product and architectural review; global operational network management and design; policy development and contract negotiations; awareness and training; and design and audit of security and operational controls – in support of PCI, HIPAA, ISO27001, and SOX compliance. Michelle's strong business acumen and ability to communicate across technical and non-technical audiences allow her to excel at cross-team collaboration, bringing a business perspective to technical and security problems. Currently responsible for Brocade's Information Security strategy, education and training efforts, and policy development, she has led Information Security teams for eBay and Cisco, supported and managed Cisco's global internal network and Internet connectivity, and researched real-time network protocols for one of the first video conferencing applications to support telemedicine for NORUT Information Technology in northern Norway. She was also responsible for deployment of the NASA Numerical Aerodynamic Simulation facility's first Gigabit network.

Michelle has her CISSP certification and received an M.S. in Computer and Information Science from the University of Oregon in Eugene and a Bachelor of Science in Computer Science from Pacific Lutheran University in Parkland, Washington. Her publications include documentation on the SOCKS protocol and various research studies in network technologies and protocol applications. Michelle has been a speaker at technical conferences worldwide and is currently a member of ISSA, (ISC)2, IEEE, WITI, and the Executive Women's Forum (EWF).
